Title: The People

Author: The People of Luna  
-----

We have remained in hiding due to the actions of assassinations happening in the Luna area. We do not believe in violence and have asked the current ruling body to change their title by act of petition. The rumors of assassination are not empowered by the people of Luna nor have we hired anyone to act on our behalf. This lone assassin is acting on their own. We have made an attempt lawfully to ask the government to change their ways and accept the outcome. Please do not think we are part of this aggressor's actions.
